*Pool World*

**NEWSWAVES**

# It's our **9th Annual 'NO FAIR'**

sale where you'll get the fairest deal on America's most sought after spas, the Hot Spring, Tiger River, Caldera, and Solana spas! Rather than spend big money on staff and booth space at the fair we like to pass the savings on to you by offering you our spas at the lowest possible price! Fantastic spas and great savings make it the perfect time to get into the spa of your dreams before winter sets in.

Go to the Fair to have fun, ride the rides, watch the Rodeo, and check out the Agriculture displays, but for a spa you'll find the fairest deal at Pool World! At Pool World you can be assured of a quality product, knowledgeable service, and a staff that makes your enjoyment our priority!

**The 'NO FAIR' sale starts  
August 6th and runs thru  
September 15th!**

**See us for the fairest  
deals on spas!!**

## Common Causes for pH Change

1. Chemicals
  - A. Sodium Hypochlorite - Raises pH
  - B. Calcium Hypochlorite - Raises pH
  - C. Lithium Hypochlorite - Raises pH
  - D. Dichloro (Super Sol) - Nearly neutral
  - E. Trichloro (Tabs/Sticks) - Lowers pH
  - F. Bromine - Lowers pH
2. Makeup water.
3. Fresh plaster raises pH
4. Dust & Acid rain normally lowers pH
5. Swimmers & their wastes normally lowers pH.
6. Algae growth can change pH.

## Mineral Cartridge Club

Using the Frog Mineral Cartridge works great to reduce chemicals, but it can be easy to forget to replace as needed. We make remembering to change it easy. Just sign up for our new Pool World Mineral Cartridge Auto Ship and you'll never forget again:

- Automatic Shipment of new Frog cartridge every 4 months.
- FREE Shipping in the US
- Save \$2.00 off retail price.

Call: 1-800-876-4340

## Proper Operation and Care of Sand Filters

### WARNING

Pressure filters operate under high pressure. Make certain to open all air bleed valves and turn off the pump before changing valve positions or removing any clamps or fittings. Possible injury or death could result if air is not released.

Sand filtration is the most common form of pool filtration and is considered very user friendly. The sand in the filter will, in most cases, not need replacement for 5 to 7 years.

The user **backwashes the filter when the filter pressure raises 8 to 10 psi. over normal operating setting.** Backwashing reverses the flow thru the filter, which cleans the media. **DO NOT BACKWASH FILTER ON A TIME SCHEDULE** because it will result in the inability to remove the smaller particles because the sand voids never become properly constricted and poor water clarity can be the result. **After backwashing put the filter in the RINSE position** which will clean the lines of any sand before you put the filter back into the filter position on the Multiport Valve.

Products such as Strip Kwik can be used to help reduce maintenance costs by removing body oils, lotions, and grease from any type filter. Use of this product promotes better filtration, lengthens filter cycles and reduces maintenance costs. We recommend you use Strip Kwik twice each season for residential pools and every six weeks in heavily used pools.

## Did you know?

The returns in your pool should be aimed downward and they should all be aimed in the same general circular pattern to the right or to the left for proper circulation in your pool.

-----

Poor circulation in your pool can give algae areas to settle in. Keep the water circulating effectively through every square inch of the pool. Sometimes people will play with the return lines because they like to see movement along the top of the water, but those returns should all be aimed in the same circular pattern and slightly downward in the pool so the water is moving throughout the entire pool, not just the top of the water.

You should also make sure the filter is operating in good condition and the pool is brushed on a regular basis to avoid any dead spots in the pool.

# The Service Spot

## To Schedule Service for your Pool/Spa:

You may have a problem with your pool or spa and need some help. When you call for service one of our knowledgeable service staff may attempt to determine if there is a simple solution that could solve the issue without a visit from the service department or they will schedule a technician if one is required. To schedule we will need to:

Verify your name, address, and get a number where you can be reached if needed.

Ask detailed questions concerning the service that you've requested.

Confirm access to the property.

Ask for a credit card #. Your credit card will be charged when the service is complete and only if it is non-warrantable. Our technicians do not accept cash. If you wish to pay by check we require a credit card # on file. If you are home at the time of service and prefer to pay by check, do so and the service will not be billed to your card.

To set up your pool closure please call:

1-800-876-4340  
or 509-928-6585

Ask for Brad,  
Owen, or Matt

## Pool Closing Tips

1. Take a water sample from the pool and have it tested at one of our locations for water balance. Take care of any existing problems like algae or cloudy water before closing.
2. Lower the water level in the pool down below the returns. \*NOTE - if temperatures are dropping down in the 30's then it is important not to drain the water down until the morning of the closing unless your pool can circulate with the water level drained down below the skimmer.

3. Brush and vacuum the pool surface. Clean the waterline with BioGuard Off the Wall. Chemically clean the filter with Strip Kwik filter cleaner.
  4. Add Arctic Blue Shock first, then use Arctic Blue Algae Protector.
  5. Evacuate lines and equipment.
- \*Test the pool every couple of weeks until the pool freezes to make sure the chlorine residual is remaining. Add chlorine if needed.

## Winter Kits

Winter Algae Protector & Winter Shock

Treats up to  
12,000 gallons  
Reg. \$29.17

# Here's where the Pool World crews have been working lately

## Black Rock Phase II Recreation Area

Due for completion in late 2007 or early 2008 is the 25' x 75' pool for the Black Rock Community. The pool features 4 swim lanes, a double flume water slide, and a kids wading area. Also included at the facility will be a spa. Both pool and spa will have an Automated Chemical Treatment System. The pool and spa were both designed and built by Pool World. The General Contractor on the project is Polin and Young from Coeur d' Alene. Great addition for the Black Rock Community.

These are just a few of the jobs our crews have been working on this year. If you're planning a remodel or an addition of a pool or spa we can help you with your plans. We are available for design work and consultation. We also do construction and remodel work on residential jobs large or small. We will be pleased to help you with your plans.

**GIVE US A CALL AT:**  
1-509-928-6585 or 1-800-876-4340.

## Bunker Hill Condominiums

A great spa was designed by the Pool World design team in conjunction with Nystrom, Olson, Collins Architects in Spokane for the Bunker Hill Condos. The General Contractor is Brown Contracting of Spokane. The attractive Ski Condominium will have access to Silver Mountain right next door.

## 38 year old Pool Revamped

*Other firms recommend Pool World*

The pool had seen better days after 38 years of providing fun and relaxation and the homeowners wanted the pool revamped. The pool was a wood wall in-ground pool that the walls were rotted out on. *Other companies were called for an estimate but after seeing the pool and it's condition the other firms recommended the homeowners call us at Pool World!*

Our service department removed the decks, removed the failed wood walls, installed new steel walls, installed a concrete bond beam, replaced the aged plumbing, backfilled the pool, prepared for new decks, and installed a new liner. The homeowners are extremely pleased and back in the swim!! What's old can be new again!!

## Saunas, Steam, and Accessories

Saunas, Sauna heaters, Steam Generators, and Infrared

There is no question our Finnish and Roman ancestors were on to something when they began the traditions of saunas and steam baths. Saunas have been used to rejuvenate the body after hard work and steam baths were used by the Romans as a social gathering place for family and friends.

Today you can create your own healthy escape. Our sauna and steam products combine age-old traditions with modern design and technology so you can experience affordable luxury that will improve the quality of your life.

We also carry accessories for your sauna.
